Environmental Policy

Continually striving to achieve the highest standards of quality, safety and environmental care every minute, every day.

MTS CLEANSING SERVICES LTD

Drainage, waste management and recycling specialists

MTS Cleansing Services Limited

Environmental Policy Statement

It is the strategic policy of MTS Cleansing Services Limited to be an environmentally conscious and responsible company and we are committed to preventing pollution and ensuring that all aspects of the business have the least harmful effect on the environment.

Our commitment to the achievement of this policy is effected by the implementation and maintenance of an environmental management system compliant with the latest edition of BS EN ISO 14001:2015, and that,

- Is designed with consideration of all external and internal contextual elements that impact upon our strategic direction, including the nature and scale of the environmental impacts of the business activities;
- Provides a framework for establishing and reviewing achievable environmental objectives and targets that drive a cycle of continuous improvement;
- Provides for performance monitoring to ensure continued effectiveness and suitability.

We are committed to protecting the environment and so far as is reasonably practicable, we will:

- Ensure we are aware of all environmental legislation, and comply with all regulatory requirements pertinent to our activities;
- Manage the company's operations in a way that prevents pollution and minimises hazards to the environment;
- Use environmentally safe technologies and operating procedures, and maintain regularly tested emergency plans;
- Minimise the environmental effects of new business developments through effective planning and consideration of environmental aspects, impacts and risks.
- Promote an understanding of environmental issues amongst our employees, and any organisation working for us or on our behalf, as well as our customers, suppliers, partners, local communities, other stakeholders and interested parties.
- Routinely assess and monitor our impact upon the environment and implement the appropriate operational controls and training to prevent pollution.
- Continual improvement of our environmental management system to enhance our environmental performance.

Allen Crust

A Crust

Managing Director
MTS Cleansing Services Limited

Consistent with this policy, and our strategic direction, our top management have identified key environmental goals that include objectives and performance targets relating to:

- The safe handling, transportation, storage, treatment, processing and disposal of any wastes and other contaminated substances that may be harmful to the environment.
- Reduction of vehicle fuel consumption and use of cleaner fuels in order to reduce carbon emissions;
- Minimising energy usage and carbon emissions in order to reduce our contribution to climate change.

Performance data relating to achievement of targets is continually monitored and analysed.

The competence and awareness of all staff is regularly reviewed to ensure the effectiveness of their contribution to achieving quality objectives and the strategic direction of the company.

As part of our internal and external communication procedures and staff training programmes, it is ensured that this environmental policy, and associated objectives, is communicated, understood, implemented and maintained at all levels within the organisation, and made available to relevant interested parties.

This policy is regularly reviewed by top management to ensure its continuing suitability, and relevance.
